Site is a structure. The structure adjoins several other structures and faces a narrow street. There are structures on the other side of the street which are similar to those on the target side of the street.

All of the structures are one or two stories high and have wooden doors for entrances which are elevated from the street 12 - 24 inches; there are small steps leading to each of the doors. There are also arched doorways and the exterior of the buildings is a rough, white colored material (ACL like painted adobe). There are pieces of cloth hanging from pieces of wood up and down the street (ACL like awnings).

The street inclines up hill in the NE direction, and in the distance you can see something dark on the horizon (ACL like distant mountains). At a greater height, the site appears to be part of a city. There are a large number of structures for as far as I can see. There seems to be a waterfront, with slips and (ACL warehouses). There are raised points of terrain (rocky and dark) amongst the city. These points of terrain are higher than the surrounding structures.

See page 8 for a sketch of the target area.

STREET

54 1/2 narrow street buildings on both sides -- can't tell what's down the street or up the street. long buildings or a continuous row of buildings. Arched doorways. windows. white (AOC like painted Adobe). Cloth hanging from wood (AOC like - ponies). Street goes up hill something dark squirts the horizon - far in the distance.

Arched plates  
stacked boards

54 1/2 Arches grouped together side by side. some larger than others - but architectural aligned not just haphazard.

52 D AI EI T I ACC AS

54½ I see lots of structure - (AOL like LA.) a city and how large but not isolated - Appears to be water - waterfront with large slips and ~~warehouses~~ (AOL warehouses). There are raised points of terrain - Rocky - dark in and amongst the city or village. Appears encased in high terrain - almost high in relation to the structures.

TASKER

1. PROJECT: 8905

2. ENCRYPTED COORDINATES: 166997/496912

3. BACKGROUND: A copy of overhead photography reveals what appears to be a series of three closely related buildings. One or more of these buildings may be of intelligence interest.

4. MISSION: Access and describe the structure(s) of interest and determine the following:

- a. Describe and determine the structure(s) of interest.
- b. Determine and describe the key purpose and the supporting function(s) and activities.
- c. Determine and describe an event of intelligence significance, if any, associated with the structure(s).
- d. Access a knowledgeable personality at the site and determine his awareness of the key purpose and supporting functions at the target site.
